In the bubble pit

Light
show
(and
disco
ball!)

A person is lying down, partially covered by a white sheet. Numerous thin, flexible fiber optic cables are draped over their body and head, creating a dense, glowing web of light. The cables are illuminated from above, casting a bright, warm glow. The background is dark, and the overall scene is artistic and futuristic.

Flexible Fiber
Optics

Bubble lights!

Bubble lights that change colors!

Really flexible!

MCFI thanks
Christopher Douglas
Hidden Angel
Foundation

For their wonderful
donation!
